Dear Mr. Zabel,

I am writing to express my sincere appreciation to you, and your company, for allowing the University of South Carolina Basketball program the invaluable opportunity to implement The Tug as one of our select training modalities. The Tug has rewarded our student-athletes by challenging them to finish their training sessions with a total body exercise that promotes muscular strength and endurance, body awareness and balance, and mental toughness. Thank you for your efforts to provide the Gamecocks with a competitive edge, as we become both physically fit and mentally strong for the upcoming, and challenging, 2006-2007 competitive season. Best wishes for continued success in all of your future business endeavors. Once again, thank you for The Tug, and enjoy your day.

Professionally and respectfully yours,

  
Matt Jennings  
Strength & Conditioning Coach
